Kim Lackey
Office manager
Morley Hoppner Group Inc.,
135 Walgreen drive,
Ottawa, Ontario.

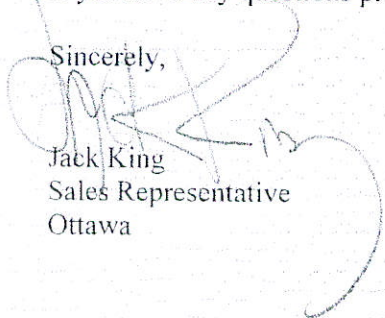

To Whom It May Concern:

Canada Building Materials (CBM) a division of St Marys Cement Inc. operates 450 ready mix trucks out of 40 plants across the province of Ontario. We have had the pleasure of working with Morley Construction and Morley Hoppner Group on various large-scale projects. Locally, in recent years we have supplied concrete to Bell Sensplex, Silver Seven Office Building and the Hines Road Office Building. Morley Construction has always demonstrated they are leaders in the field of proper construction practices and health & safety with not only their staff but that of the sub trades that they are coordinating. When engaging in a contract with Morley Construction, CBM has a high level of comfort and confidence in the capability and resources of their team.

We are very pleased to have been involved in many of their project and hope to continue in the future. Morley Construction creates a strategic partnership with their sub-trades and suppliers, which we all in the industry should aspire to.

If you have any questions please feel free contact me directly at (613)791-2568

Sincerely,

Jack King
Sales Representative
