

Modern Niagara
OTTAWA INC.
MECHANICAL CONTRACTORS AND ENGINEERS

Monday December 18, 2006

To whom this may concern,

Dear Sir or Madam,

It is our pleasure to provide a letter of reference for Morley Hoppner Group Inc. (Morley) with respect to the Bell Sensplex project.

We were the mechanical subcontractor to Morley for the Bell Sensplex. In our opinion Morley's performance on this project was exceptional. The integrity, professionalism and technical capabilities of Morley made the project a success on every level. Morley's field personnel were organized and efficient and maintained a clean and safe site. The work of all trades was well coordinated and we as a subcontractor were able to perform our work in an efficient and safe manner. Morley's efforts on this project have resulted in a complex that we are proud to have been involved in.

We would not hesitate to work with Morley on projects of any size and complexity.

Yours Very Truly,
MODERN NIAGARA OTTAWA INC.

Brad McAninch
General Manager
