To Whom It May Concern:

**Morley Hoppner Group Inc.**

We are pleased to be able to give our reference for the Morley Hoppner Group. We have worked with them since the inception of their company in 1988. Because of their professionalism previously as a GC we teamed with them for a number of very successful design build projects. On each project, we can attest to the ethics in their management of the project and their commitment to ensuring that the budget and schedules are maintained.

Some of the higher profile design build projects include:

- Watchfire Headquarters (phases 1 & 2 – 6,840 sq.m.)
- WebPLAN Headquarters (6,730 sq. m.)
- Sensplex (14,000 sq.m.)

The Sensplex, completed in December 2004 was constructed in 10 months at a cost of \$27,000,000.

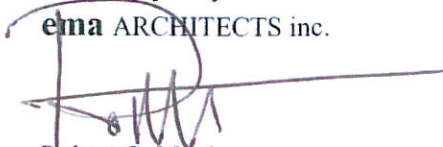

**ema** recommend them as a partner to any type of project based on their strong belief in the “team” concept, their understanding of the importance of budgets and schedules, as well as their willingness to participate in the value engineering process. They have also developed a strong relationship and respect with the City of Ottawa in their economic development, planning and permits departments.

We would encourage you to meet with them to fully understand their strengths, values and not the least, to establish a personal connection to their management team.

If you have any questions, please feel free to contact the writer.

Yours very truly
